

America's Only Green-Seal Certified Replacement Window

The beautiful way to save energy

Meeting the needs of the present, without compromising the needs of the future.

Fibrex® Material A Better Alternative, A Better Window

Fibrex® Material is a revolutionary blend of reclaimed wood fiber and synthetic material. All of the wood fibers used in this compound are reclaimed directly from our manufacturing processes. Increased use of Fibrex® Material in the Andersen products contributes to addition utilization of wood, and provides an efficient use of embodied energy in the reclaimed wood fiber.
